**M.W. Lee B. Carter, 33 ° KYCH
Most Worshipful Grand Master**

Objective

To introduce a new state of the art membership card in the jurisdiction. Tie the membership card to a new “MS Access” membership database with member information accessible through the bar-coding on the “new” membership cards. To assist the Grand Lodge in tracking member status, tenure, skills, Interest, Registrations,.....etc.

Membership Card Facts

The membership cards barcode will contain a member # which will be tied to an Access database that will contain all of a Brother's pertinent information. i.e. Lodge name & numbers, Mailing Address, Phone #, Membership Financial Status, etc. Each member # will be unique and will be the Permanent member# of the Brother regardless of status.

Example Membership ID format:

John Doe is in Lodge #225

His member number could be 225**** whether he's financial, Non-Financial or deceased.

Note: The first 3 numbers will be the member's lodge #.

Other attributes can be added to the member # such as year raised

**Example Member ID: 22519760001 equals a member of:
Lodge #225, Raised in 1976, with a member #0001**

Once the format is determined the member number criteria and the attributes of the member number are final and will be the standard for all member numbers
